

WHY BECOME A CERTIFIED SIX SIGMA GREEN BELT?

A **Certified Six Sigma Green Belt (CSSGB)** successfully applies process improvement to businesses and organizations across all industries. CSSGBs are experts in identifying problems, analyzing data, and creating solutions to lower costs while improving quality.

What Are the Core Competencies of a SSGB?

- Build problem solving, analytical, and business acumen skills.
- Implement successful change management in your company/organization.
- Master Six Sigma methodologies, tools, and techniques (DMAIC, DMADV).
- Identify the root cause of a problem and prevent recurrence.
- Learn process improvement, data analysis, and project management skills.
- Prepares you for a leadership role such as a Certified Six Sigma Black Belt.

What Is the Value to Your Company?

- CSSGBs can assist your company in identifying current problems and their scope, and develop solutions to those problems.
- CSSGBs help achieve the much-needed process improvements leading to cost savings, higher quality, improved delivery, and increased profit margins.
- Using Six Sigma approaches can improve an organization's products or services to increase marketability.
- By employing a Certified Six Sigma Green Belt, a company will increase the efficiency and utilization of resources within the organization.

What Is the Value to You?

- Allows you to become a specialist in process improvement and enhances your career's standard and credibility.
- Those with any level of Six Sigma training earned more than those without any (+\$17,332 in U.S., +\$8,333 in Canada).*

**Please see the current Quality Progress Salary Survey at: asq.org/qualityprogress/ under Tools and Resources.*
