

MS - 900 : Microsoft 365 Fundamentals

Course Outline

Module 1: Cloud Concepts

- **Principles of Cloud Computing:** Introduction to the fundamental concepts of cloud computing.
- **Microsoft Cloud Services:** Overview of the cloud services offered by Microsoft.
- **Migrating to Cloud Services:** Understanding the process of migrating existing services to the cloud.
- **Lab: Cloud Fundamentals**
 - **Exercise 1:** Determine the appropriate cloud model (paper-based lab).

Module 2: Core Microsoft 365 Services

- **Microsoft 365 Core Services:** Key services provided within Microsoft 365.
- **Microsoft On-Premise Services and Cloud Services in Microsoft 365:** Understanding the relationship between on-premise and cloud services.
- **Unified Endpoint Management in Microsoft 365:** Managing devices and endpoints using Microsoft 365.
- **Teamwork in Microsoft 365:** Collaboration tools and teamwork features within Microsoft 365.
- **Lab: Enabling and Configuring a Microsoft 365 Tenant**
 - **Exercise 1:** Activating and configuring a Microsoft 365 tenant.
 - **Exercise 2:** Exploring the Microsoft 365 user and admin portal.
 - **Exercise 3:** Configuring new user and group accounts.

Module 3: Security, Compliance, Privacy, and Trust in Microsoft 365

- **Organizational Security Fundamentals:** Key concepts of organizational security within Microsoft 365.
- **Security Features in Microsoft 365:** Overview of security features like MFA, conditional access, and more.
- **Identity and Access Management:** Managing identities and controlling access using Azure Active Directory.
- **Device and Data Protection in Microsoft 365:** Safeguarding devices and data within Microsoft 365.
- **Compliance in Microsoft 365:** Tools and strategies for ensuring regulatory compliance.
- **Lab: Security in Microsoft 365**
 - **Exercise 1:** Managing users and devices in Azure Active Directory.
 - **Exercise 2:** Evaluate Identity Protection.
 - **Exercise 3:** Explore tools for compliance.

Module 4: Microsoft 365 Pricing and Support

- **Microsoft 365 Subscriptions, Licenses, and Billing:** Understanding subscription plans, licenses, and billing in Microsoft 365.
- **Support in Microsoft 365:** Exploring support options for Microsoft 365.
- **Lab: Managing Subscriptions, Licensing, and Support in Microsoft 365**

- **Exercise 1:** Explore interfaces for billing and subscriptions.
- **Exercise 2:** Add trial licenses to the tenant.
- **Exercise 3:** Review support options.
